

May 2018

Greetings!

June - almost July before you read it! - and here is my May 2018 Newsletter! Like you I've been busy with work and work-related travel. I hope to have more opportunities for travel - and work - this summer.

If you can't schedule [Onsite Training](#) during the summer it may be the best time for you to attend a [Training Webinar](#). More information on both are in this Newsletter and, of course, you can always contact me for more information.

Distribution of the uniform hazardous waste manifest in California

Though full implementation of the e-Manifest System - still years away - will change this, it's good to know the responsibilities of a hazardous waste generator in the Golden State for the distribution of the manifest. [More...](#)

Quick Links

Brief explanations of complicated subjects

- [HazMat Employee Training](#)
- [ICAO/IATA Dangerous Goods Training \(air\)](#)
- [IMO Dangerous Goods Training \(vessel\)](#)

[Survey:](#)

What is your hazardous waste generator status?

[Survey:](#)

Must you register as a shipper or carrier of HazMat?

[Survey:](#)

Do you need a Hazardous Materials Safety Permit?

IMPROVEMENTS

Everything about the Generator Improvements Rule

It may take me awhile to write about every aspect of this significant rule (60+ changes to the regulations!) but I'll do it. Stay tuned to my updates by checking in to this one location. Be sure to ask me to write articles on topics that interest you.

[Why a HazMat Employee Training](#)

This will be the first of two articles detailing the new closure requirements for a large quantity generator of hazardous waste.

This month:

[LQG Requirements for Closure of a Facility](#)

Next month:

LQG Requirements for Closure of a Hazardous Waste Accumulation Area

Banned from landfill disposal in Illinois

Can just anything be sent to landfill for disposal? The answer in Illinois - and likely your state - is "no". In addition to other federal and state regulations for the management of waste, state legislation may restrict what items from home or business may be disposed in a landfill.

Onsite Training in Your Area

May 3 in Painesville, OH
May 8 & 10 in Hillsboro, OR
May 19 in Waukegan, IL
June 13 in Joliet, IL
June 19 in Colorado Springs, CO
July 13 in Menomonee Falls, WI
July 26 in Olathe, KS

And more to schedule...

Schedule your Onsite Training today!

Try [Sonix Studio's free CSV Builder app for Hootsuite or Postcron](#). It's a great tool for randomly selecting dates and times when using the bulk uploader.

I don't just write articles!

My YouTube channel is filled with informational videos on a variety of regulatory topics. Curious about universal waste in California? How about the operation of a TSDf for hazardous waste? It's in there, with more being added every day.

I upload a variety of photos to Flickr. Perhaps you could use some of them in your training or promotional materials.

I upload a lot of my Power Point presentations to SlideShare/LinkedIn. Check them out for answers to your questions.

Do you have a question?

People contact me with questions and I answer 'em!

- [Will USEPA provide additional time for receiving facilities to submit manifests and ease the burden of transitioning to the new e-Manifest System?](#)

Where is the [Generator Improvements Rule](#) in

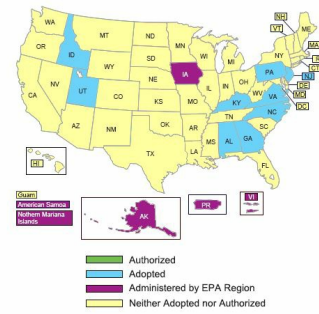

- [How do I dispose of household hazardous waste?](#)
- [What does USDOT mean by a "contract carrier"?](#)
- [Is the three letter prefix to the manifest tracking number required as a package mark on the hazardous waste container?](#)

Shell Oil refinery to pay civil penalty and make improvements due to RCRA violations

I'm not trying to knock a company when it's down. We all make mistakes and sometimes those mistakes are costly. What's important is that we - all of us - learn from those mistakes. Make sure these non-compliance issues don't exist at your facility. [More...](#)

Effect?

Idaho adopted the new rule on March 28th. It becomes effective in Colorado on June 30th.

Don't let the summer slow-down stop you from complying with the regulations of the USEPA, your state environmental agency, the USDOT, IATA, and IMO. Resolve to study, train, and learn this summer so that you are prepared for the blast of work to come this fall and winter.

Whatever you need, please let me help you! Feel free to contact me with questions.
